DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in the prior Office Action.
2. Claims 2-16 have been cancelled. Claims 1, 17, and 18 have been amended. Claims 1 and 17-19 are pending and under examination.

Response to Amendment

3. It is acknowledged that a new amendment to the claims complying with the requirements of 37 CFR 1.121(c) was filed on 01/31/2007.

Response to Arguments

Drawings

4. The objection to the drawing is withdrawn in response to Applicant's arguments (Fig. 1-3) and amendment to the specification and deletion of Fig. 10A and B consisting only of nucleic acid sequences that have been submitted in their entirety in computer readable format.

Claim Rejections - 35 USC § 112, 2nd paragraph

5. The rejection of claims 1 and 18 under 35 U.S.C. 112, second paragraph, as being indefinite is withdrawn in response to Applicant's amendment to the claims filed on 01/31/2007.

New Rejections

Claim Rejections - 35 USC § 112, 2nd paragraph

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter that the applicant regards as his invention.

7. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, it is not clear from the language of the claim whether the recitation of SEQ ID NO: 4 refers to the antibody or to the RAP-2 protein. Since the metes and bounds of the claim cannot be determined, the claim is indefinite.

It is noted that claims 18 and 19 depend from the rejected claim 1.

Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 17 recites the limitation "fraction" in claim 1. Since claim 1 recites "fragment" and not "fraction", there is insufficient antecedent basis for this limitation in the claim.

Conclusion

8. Claims 1 and 17-19 are rejected.

It is noted that claims 1 and 17-19 are free of prior art, because the art fails to teach SEQ ID NO: 4 or sequences homologous to said sequence, wherein an antibody recognizing RAP-2 could be made.
